Petition to the
Los Angeles Department of Water and Power

YES I want the DWP to fulfill its obligation to our lake, land, and community.

We demand that the City of Los Angeles:

1. **Refill Silver Lake Reservoir** as soon as possible in an environmentally sustainable way;
2. **Modify existing Reservoir banks** to be scenic, safe and supportive of plant life that enriches water quality;
3. **Restore and beautify** the 31 acres of land currently within the fences through a plan that values access, beauty and conservation, with minimal impact to the local neighborhood;
4. **Fully fund a feasibility study** for the responsible transition and future management of the Reservoir Complex, with community input on new uses for this amazing public resource.

YES keep me informed about the future of Silver Lake Reservoirs. (please check box)
